

HOW TO E-SCRIBE A COMPOUND

We deliver & ship to ALL patients locations

The best way to properly electronically prescribe a compound

- Find Precision Compounding Pharmacy by searching the Bellmore zip code 11710, the name will present as PRECISION ****COMPOUNDS ONLY**** PHARMACY.
- Pick one of the ingredients in the compound formulation as a powder formation and place it in the drug field.
- Put the micronized powder in the drug location and write the whole formulation in the free text or directions of the prescription then continue with the Electronic prescription as you normally do.
- If the formulation contains a control substance always make sure to place that control ingredient in the drug field.

Example:

Naltrexone 1.5mg Capsules

Sig: Take one capsule orally once a day at bedtime

#30 Capsules

Drug: Naltrexone powder

Sig: please compound capsule formulation naltrexone 1.5mg Capsule Take one capsule orally once a day at bedtime
