Central Drugs Compounding Pharmacy is an industry leader in the art and science of custom compounding and individualized health-care solutions, with our own state-of-the-art compounding laboratory, and an experienced team of compounding pharmacists who are recognized experts internationally. Our aim is to provide the highest level of expert advice, world-class service, and custom solutions to help patients' live healthy lives. Since 1999, Central Drugs has grown from a small local pharmacy into a chain of custom compounding pharmacies with national reach, serving practitioners and patients across the U.S.

Products:

1. LDN (Low Dose Naltrexone) & uLDN (ultra LDN)
 - a. Strengths: 100mcg to 4.5mg per capsule
2. Topical absorbable Glutathione

Central Drugs Compounding Pharmacy is pleased to introduce the only topical and absorbable Glutathione spray on the market. Our patented formula utilizes a leading-edge sub-nanotechnology that provides rapid absorption into the skin.

BIOAVAILABILITY

Central Drugs has been able to conjugate a Nano-Glutathione complex moiety (**patented**) that has been shown in preliminary clinical studies to be able to transport glutathione through the skin into blood circulation. This is a significant breakthrough in glutathione delivery, as previous applications of glutathione that have shown increased blood levels have been through the intravenous route. With this topical application of Nano-Glutathione, patients can conveniently apply this at home and on a regular basis for various uses to gain antioxidant and detoxification support.

MAJOR BENEFITS OF GLUTATHIONE

Anti-Aging
Powerful Antioxidant
Liver Detoxification
